## KING GEORGE OF GREECE IS SLAIN BY AN ASSASSIN

Monarch of Hellenic Nation Is Murdered While Walking in Street of Salonika.

## ANARCHIST DOES DEED

George I. Expires at Hospital, Where He Was Rushed Immediately After Being Shot Down.

## ASSAILANT IS OVERPOWERED

Prisoner Declares That He Is Against All Governments and Maintains Impassive Demeanor—Prince Constantine, Who Will Succeed to the Throne, Is En Route From Janina—Queen Olga Rushing to Salonika on Russian Warship.

Salonika, March 19.—King George of Greece was assassinated while walking in the streets of Salonika. The assassin was a Greek of low mental type, who gave his name as Aleko Schinas. He shot the king through the heart. The king was accompanied only by an aide de camp, Lieutenant Colonel Francoudis. The assassin came suddenly at the king and fired one shot from a seven chamber revolver. The tragedy caused intense excitement. Schinas was seized immediately and overpowered.

The wounded king was lifted into a carriage and taken to the Papafion hospital. He was still breathing, but died within half an hour.

Prince Nicholas, the king's third son, and other officers hurried to the hospital. Arriving first, Prince Nicholas summoned the officers and speaking in a voice choked with sobs said: "It is my deep grief to have to announce to you the death of our beloved king and invite you to swear fidelity to your new sovereign, King Constantine."

Crown Prince in Janina. Crown Prince Constantine, who succeeds King George, is at present at Janina. He is now en route here with all possible speed. A dispatch from Athens announced that Queen Olga had embarked on a Russian cruiser for Salonika.

The assassin of the king is an evil-looking fellow, about forty years of age. On being arrested he refused to explain his motive for the crime. He declared that his name was Aleko Schinas, and, in reply to an officer, who asked him whether he had no pity for his country, announced that he was against governments.

Schinas maintained a perfectly impassive demeanor, which was suggestive of his being irresponsible for his actions.

Notwithstanding the rapidity with which the king received attention, he was found to be dead on arrival at the hospital.

Precautions have at once been taken throughout the city and perfect order is being maintained.

King in Personal Command. King George, who had taken personal command of his troops during the earlier period of the war, had been here since December, when the Turkish fortress was occupied by the Greeks after a short siege.

The queen of Greece also has been here and has paid great attention to the care of the sick and wounded.

King George in December had a meeting here with King Ferdinand of Bulgaria to discuss the fate of the captured Turkish territory after the war.

When King George arrived in Salonika on November 12 with Prince Constantine and Prince George, he was warmly greeted by the Greek metropolitan and the senior officers of his army. All the houses were decorated with the Greek flag and thousands of people assembled to cheer him. He later took part in a service of thanksgiving in the Archbishop's church.

King Took Daily Walks Unattended. Since his triumphant entry into Salonika the king has been accustomed to take an afternoon walk either to the famous White tower or to the cavalry barracks at Lesser Kara Burun. The king's confidence in the people was so great that he went about freely, attended by a single equerry. The dangers of this habit were apparent to his entourage, who repeatedly, without avail, requested his majesty to permit the presence of the civil guards. A few days ago four gendarmes were ordered to follow the king, but their presence was considered so objectionable by King George, and so out of keeping with that affection he felt for his sub-

jects, both old and new, that the number was reduced to two, who followed at a long distance from him. Yesterday the king, attended by an equerry, Colonel Francoudis, was returning from a walk to the White tower and was in a happy, contented mood as he walked along. He talked of the success of the war and of the Greek success. The Greek arms had captured Janina and Salonika and he thought

that this was a fitting climax to his 56-year reign. "Tomorrow," continued the king, "when I pay a formal visit to the dreadnought Geoben, the German battleship that is to honor a Greek king here in Salonika—that fills me with happiness and contentment."

These proved to be the monarch's last words, for at that moment a shot rang out from behind and Francoudis sprang around and seized the hand of the assassin, which was already poised for a second shot.

## STREETS ARE BADLY IN NEED OF WASHING

CLOUDS OF DUST ROLL TO AND FRO, CAUSING DISTRESS AND LOSS.

We would suggest that right now would be an excellent opportunity to give the downtown pavements a bath. The streets are literally buried in mud, dust and filth and the March winds are making frequenters of our business section think they are caught in a Sahara sand storm. The clothes of pedestrians are soiled, drivers of vehicles are threatened with blindness and goods in stores are ruined by clouds of dirt being swept up and down the thoroughfares by the playful zephyrs.

## I. N. U. BUYS LAND FROM ILL. CENTRAL

OVER TWO BLOCKS PURCHASED FROM STEAM ROAD IN DIXON.

## ALSO AFTER STERLING PLANT

Report is Utilities Co. Wants to Purchase Griswold Wire Plant and Water-Power Rights.

The Illinois Northern Utilities Co. has completed a transaction with the Illinois Central Railroad company which gives the utilities corporation ownership of all of the land north of the switch track between the I. C. right of way and Jackson Place, the length of the piece being over two blocks. The Illinois Central has owned two and one half acres of the ground adjacent the fill to the bridge approach, and this has been purchased by the I. N. U. completing their ownership to the big tract on which they propose to erect their big central steam power station.

After Water Power. It is also announced in Sterling that the Utilities company is negotiating for the abandoned Griswold wire plant in that city, which is located at the west end of the race, and which controls a large part of the water power rights in both the old and new dams there. It is rumored, however, that the company is not after the factory so much as the water power rights, which would give it greatly increased facilities for cheap power in this section.

## For New Station.

It is understood that the contract for the erection of the new power station on Athletic park, for which bids are now being received, will be awarded late this week or early next week, in which case work on the structure will start as soon as possible.

The building, it is reported, is to be 90 by 140 feet in dimensions and will be so built that additions can be erected at any time they are needed. The chimney of the new power station will be a feature, the plans calling for a smokestack 215 high, the loftiest in this section of the country.

## FRANKLIN GROVE RESIDENCE BURNS

HOME OF ELMER MILLER WAS BURNED TO THE GROUND TODAY.

Franklin Grove, Mch. 19.—Special to Telegraph—The home of Elmer Miller here was burned to the ground this morning by a fire which was caused, supposedly, by overheated furnace pipes.

The loss is estimated at \$7000. Nothing but the furniture on the lower floor was saved. The house was located at the south end of Main street, a block from a hydrant, and the fire department was greatly hampered in fighting the fire because of this.

Mrs. Miller was in the yard when she saw the flames bursting from the house, and she rushed in to turn in an alarm. Neighbors aided the fire department in the struggle with the flames, but to no avail.

## WANT NEW BRIDGES ON 2ND AND 3RD ST.

MOVEMENT TO INDUCE I. C. TO REPLACE STONE ARCHES WITH CONCRETE.

## MAKE STREETS TOO NARROW

Arches Cut Down Width of Street Under Them—Want Improvement Before Paying.

A movement to secure the substitution of modern concrete and steel viaducts over Second and Third streets instead of the old stone arches which have carried the Illinois Central tracks across those highways for half a century, will in all probability be started by influential men within a few days, as the improvement, if it is secured, should be made before those streets are paved.

It is argued by those who favor the improvement that the arches, which are old fashioned, bare and grim, will destroy the beauty of the streets when they are paved, and that modern concrete and steel viaducts, such as the company put in at Palmyra avenue, in North Dixon, are needed. The old stone arches, it is said, were erected in 1855, when the railroad company first operated trains over this division, and they occupy about half of the street, projecting into the highway about ten feet on each side. It is believed the railroad company would make the necessary change if the proper agencies work to bring about the desired result.

## WILSON REFUSES TO INVOLVE U. S.

Won't Indorse Request That American Bankers Participate in Chinese Loan.

## DECLARES FOR THE OPEN DOOR

Chief Executive Favors the Budget System—Gives Out Letter He Wrote Senator Tillman on the Subject.

Washington, March 19.—The following statement was given out at the White House:

"We are informed that at the request of the last administration a certain group of American bankers undertook to participate in the loan now desired by the government of China (approximately \$125,000,000). Our government wished American bankers to participate along with the bankers of other nations, because it desired that the good will of the United States towards China would be exhibited in this practical way, that American capital should have access to that great country and that the United States should be in a position to share with the other powers any political responsibilities that might be associated with the development of the foreign relations of China in connection with her industrial and commercial enterprises. The present administration has been asked by this group of bankers whether it would also request them to participate in the loan. The representative of the bankers through whom the administration was approached, declared that they would continue to seek their share of the loan under the proposed agreements only if expressly requested to do so by the government. The administration has declined to make such request because it did not approve the conditions of the loan or the implications of responsibility on its own part which it was plainly told would be involved in the request.

U. S. Would Aid Chinese. "The government of the United States is not only willing, but earnestly desirous, of aiding the great Chinese people in every way that is consistent with their untrammeled development and its own immemorial principles. The awakening of the people of China to a consciousness of their possibilities under free government is the most significant, if not the most momentous, event of our generation. With this movement and aspiration, the American people are in profound sympathy. They certainly wish to participate, and participate very generously, in opening to the Chinese and to the use of the world the almost untouched and perhaps unrivaled resources of China.

Favors the Open Door. "The government of the United States is desirous of promoting the most extended and intimate trade relationships between this country and the Chinese republic. The present administration will urge and support the legislative measures necessary to give American merchants, manufacturers, contractors and engineers the banking and other financial facilities which they now lack and without which they are at a serious disadvantage compared with their industrial and commercial rivals. This is its duty. This is the main material interest of its citizens in the development of China. Our interests are those of the open door—a door of friendship and mutual advantage. This is the only door we care to enter."

Favors Budget System. President Wilson is in favor of a budget system for the conduct of the government finances. He made public here a letter written January 30, from Trenton to Senator Tillman, expressing the hope that a budget system might be worked out after he got to Washington. President Wilson wrote, in part: "Ever since I was a youngster I have been deeply interested in our method of financial legislation. One of the objects I shall have most in mind when I get to Washington will be conferences with my legislative colleagues there, with a view to bringing some budget system into existence. This business of building up the expenses of the nation, piece by piece, will certainly lead us to error and, perhaps, embarrassment."

## BAD BREAKING OUT ON CHILD'S SCALP

Little White Lumps, Pimples Would Break and Run Matter. Itching and Burning. Hair Came Out in Bunches. Cuticura Soap and Ointment Cured. Also Made Hair Grow.

513 E. Second St., Muncie, Ind.—"My little girl had a bad breaking out on the scalp. It was little white lumps. The pimples would break out as large as a common pinhead all over her head. They would break and run yellow matter. She suffered nearly a year with itching and burning. It was sore and itched all the time. The matter that ran from her head was very thick. I did not comb her hair very often, her head was too sore to comb it. And when I did comb, it came out in bunches. Some nights her head itched so bad she could not sleep. "I tried several different soaps and ointments, also patent medicine, but nothing could I get to stop it. I began using Cuticura Soap and Cuticura Ointment this summer after I sent for the free samples. I used them and they did so much good I bought a cake of Cuticura Soap and some Cuticura Ointment. I washed her head with Cuticura Soap and rubbed the Cuticura Ointment in the scalp every two weeks. A week after I had washed her head three times you could not tell she ever had a breaking out on her head. Cuticura Soap and Ointment also make the hair grow beautifully. I cannot say enough for them for they cured my little girl." (Signed) Mrs. Emma Patterson, Dec. 22, 1911.

Cuticura Soap and Cuticura Ointment are sold throughout the world. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

### AWAKENS AFTER FOUR YEARS

Remembers but Little of Events That Transpired in Wanderings Around Country.

Los Angeles, Cal.—Attired in the height of fashion, carrying a new dress suit case in one hand and with the other waving a gay farewell to friends who had gathered at the Erie train in New York in June, 1908, to see him depart for Phoenix, was the last remembrance of Albert J. Ryan, who awakened on the sands two miles below Oceanside, dressed in a torn and much patched suit of clothes.

He had been the victim of a four-year attack of aphasia, if the story which he related to Central station detectives proves true.

In the interim, according to bits of information which Ryan says he has picked up concerning himself since Sunday, he traveled from the Atlantic to the Pacific ocean, sent back to New York city for Miss Mary Flood, his sweetheart, to join him in California, married her somewhere in the state, became a father and worked for several years in this city and San Diego. Yet he has no recollection of any of these events.

Central station office detectives say it is one of the most remarkable cases of aphasia that has ever been brought to their attention. There is no charge against Ryan for deserting his wife and child, living at San Diego.

He was cross-questioned at considerable length by detectives, but could not be shaken in any of his statements, some of which later were verified. He was identified by half a dozen men who knew him here and in San Diego before his return of memory. Ryan told the detectives that when he left New York he was employed as a hall boy at the Manhattan club, and that W. E. Guerin and General Burbank, millionaire members of the club, had given him money to go to Phoenix, as they thought he had tuberculosis.

### KNOWN DOG, NOT OWN NAME

First Tears, Then Candy and Finally Mamma Came to Boy Lost in New York.

New York.—A little yellow dog, tugging at a chain to which a little boy clung, went through 100th street and stopped at Second avenue.

On reaching the corner the boy began to sob and the little yellow dog to bark and whine. Patrolman Murphy came along. The boy was too shaken with sobs to ask, and the little yellow dog snapped at the patrolman's legs and growled.

Murphy took boy and dog under his arms and carried them to the East 104th street police station. There the boy couldn't recall his name and address, but he knew his dog was "Puppy," and he wouldn't part from him.

The two were fed with sweets and delicacies and then placed on a chair behind the desk of Lieut. Shevlin, the dog in his young master's lap. There they remained until 9 o'clock. When a woman ran into the station house and said her four-year-old son, Nathan Khen, was missing from his home, 217 East 100th street. The youngster behind the desk was her lost boy.

### RAID ONLY LAWYER'S JOKE

Crowd Waited for Judge, Lawyer and Store Proprietor to Be Arrested in New York.

New York.—"There's going to be a judge, a lawyer, a department store proprietor and a few others arrested for obtaining money by fraud, under false pretenses," was the tip that was passed out with the further information that the arrest would be preceded by a raid which would be made at eleven o'clock at 652 West End avenue.

The house is that of Samuel J. Goldsmith, an attorney. At eleven o'clock, while the street was filled by reporters, the raid was made. The judge, lawyer and others were dumfounded when a door to the room in which they were pushed open. Three men, one in the uniform of a policeman and the other two who said they were central office men, exclaimed: "The house is plucked."

Then Goldsmith informed his friends, after he had pulled them back in through the windows, that it was all a joke, but eleven o'clock hereafter was the hour for breaking up the card game.

### FORCED TO KNEEL AT OVEN

St. Louis, Mo.—As Mrs. W. C. Rollman was kneeling at the oven of her range, putting the finishing touches on a turkey, two negroes entered the kitchen and, at the muzzle of a revolver, forced her to remain half an hour on her knees before the hot oven while one of the intruders ransacked the house, obtaining \$15.

Mrs. Rollman's four-year-old son, who was watching closely the operations on the turkey, was forced to kneel beside his mother.

The robbers did not molest the turkey. Two suspects were arrested.

## MISS ANDRUS WRITES LETTER FROM ORIENT

DIXON LADY TRAVELING ABROAD  
ENJOYS NEW SIGHTS  
AND SCENES.

The following letter received by Mr. and Mrs. O. B. Dodge from Mrs. Leonard Andrus who, with her niece, Miss Lucia Morris, is traveling abroad, will be of interest to their many Dixon friends:

On board S. S. Siberia—It was a very pleasant surprise when I at last opened my steamer mail to find a message from you two good friends. I remember so well how it went to my heart when I went to Europe and you sent me a bon voyage. You had better pack up and come out this way.

I went crazy over Honolulu yesterday for a rest cure place. We had only one day there but I was delighted. To be frank I was really disappointed in it all as we sailed in and thought "how can we ever spend three weeks here." We decided as long as we had to come back this way we would just wander around and not try to sight-see, but we, Lucia and myself, met friends who had arrived only two days before, and I wanted to visit with Miss Lydia Williamson, who is teaching here. After writing postals and having lunch I had become so enthusiastic over it all that we got an auto and rode for an hour and a half, ending at the steamer and a visit with Miss Williamson, who could not come earlier, as it was her busy day. She was looking fine and as glad to see us as we were to see her. It is very tropical and oh, so attractive. Then the bathing for which it is so deservedly celebrated. Now we are out of harbor and off and it is perfect. Just like a June day, but in about three days we will strike the cold again and won't find this until we leave Shanghai. Our next stop, Yokohama, is ten days. We are to be there two days and then Kobi, Wagsaki, Shanghai and Manila, where we stay 12 to 16 hours to unload and reload.

I have heard that we are to be in Manila four days as it is a fete week but I have not dared to ask Captain Zeiler. He is a very consequential man and dislikes questions. We ate at his left and soon found out his peculiarities. I only hope it is so. Then we go to Hong Kong and there we have to leave the ship while it is renovated and we have nine days there and then start on the back trip, stopping again at Shanghai, Wagsaki and Kobi, where we leave the boat for six weeks to two months in Japan before coming back to Honolulu. Just think, it will be Feb. 26 when we leave the old Siberia and later when we get our mail from our permanent address in care of Thomas Cook & Sons, Yokohama, Japan. We are so excited; Lucia, of course, at returning, and I do so love to go to new places. We had a ship full coming over but there are only about 60 of us going on—mostly missionaries and some of them sweet and nice. What a wave of matrimony seems to have swept over Dixon. And is it not nice? I wish it would grow and grow until a lot of the delightful women with which Dixon abounds were in homes of their own.

With many thanks for your kind message and best wishes for your health, happiness and prosperity, I am fondly yours,

ELIZABETH M. ANDRUS.

## ALL YOU NEED IS GASCARET TONIGHT

NO SICK HEADACHE, BILIOUS STOMACH, COATED TONGUE OR CONSTIPATED BOWELS BY MORNING.

Turn the rascals out—the headache, the biliousness, the indigestion, the sick, sour stomach and foul gases—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse and regulate your liver, remove the sour, undigested and fermenting food and the misery making gas; take the excess bile from your liver and carry out of the system all the constipated waste matter and poison in the intestines and bowels. Then you will feel great.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love to take Cascarets because they taste good—never gripe or sicken.

## SEEKS LOST NIECE

New York Millionaire Offers Fortune in Search.

Miss Marian Ege, Relative of Wealthy  
Manufacturer, Disappears After  
Telling Uncle of Being Followed  
by a Strange Man.New York.—With a declaration by  
Jacob Doll, millionaire manufacturer,  
that he will spend an unlimited  
amount of money to recover his fif-  
teen-year-old niece, Marian Ege, who  
disappeared while walking near her  
home, police of New York and a score  
of private detective agencies began  
an exhaustive search of New York  
and neighboring cities for the missing  
heiress.Following the girl's disappearance,  
the police began a quiet search, but  
were unable to unearth a single clue  
except that the girl had spoken to a  
friend of being followed on the street  
by a strange middle-aged man.After two days of fruitless efforts  
by the New York police, Mr. Doll  
ordered into the search a number  
of private detectives and made thestatement that he believes that his  
niece had been kidnapped.The statements of Miss Ege's  
friend that the young woman had told  
her of being followed have been corrob-  
orated by Mr. Doll. The aged mil-  
lionaire said that on numerous occa-  
sions reaching back over a period  
of several months his niece had re-  
marked to him that a middle-aged  
man, whom the young woman could  
only hazily describe, had followed  
her while walking in the neighbor-  
hood of her home, and on one occa-  
sion had attempted to attract her at-  
tention.Since the search was taken up Mr.  
Doll has kept in touch almost con-  
stantly with the police. As the  
search continues and no tangible  
trace of what has become of the  
young woman is discovered, the aged  
millionaire reiterates his determina-  
tion that every power that can be  
controlled by his vast fortune will be  
turned toward finding the girl.The police have carefully ques-  
tioned many of the young woman's  
friends, but so far none has been  
able to give a hint that promises to  
clear up the mystery of Miss Ege's  
disappearance. Several possible ex-  
planations are being entertained by  
the police and every angle is being  
investigated.It is thought that Miss Ege may  
have been taken ill and that she now  
lies, with her identity unknown, in  
some New York hospital. Friends of  
the young woman's family in neigh-  
boring cities are being communicated  
with in the hope of ascertaining if  
Miss Ege, without knowledge of her  
own family, had gone to visit them.The main energies of the search,  
however, are centered on learning the  
worth of the clue offered by the  
young woman's previous statements  
that she had been followed by a  
stranger.It is well known that Miss Ege was  
a favorite niece of her wealthy uncle,  
and it is hinted by police officials at  
work on the case that the young  
woman is being held for ransom by  
some individual or gang in New York

York city is to be the feature of the  
entrance hall in the mansion which  
John D. Rockefeller, Jr., is building  
on West Fifty-fourth street. The man-  
tel is of French workmanship and  
was brought to America by the Scher-  
merhorns, a noted New York family,  
to adorn their home overlooking the  
East river, near where the Rockefeller  
Institute for Medical Research now  
stands.The house was later bought by  
Dewitt Clinton, then governor of New  
York state, and has been used as a  
day nursery since the Rockefellers ac-  
quired the property.

## BUFFALO KILLS CAMERA MAN

French Court Sustains Widow's Claim  
for Compensation for Loss of  
Husband.Paris.—An important point of law  
was settled this week when the widow  
of Paul Fiere, a photographer for cine-  
matograph pictures, sued for compen-  
sation, her husband having been killed  
in Central Africa while taking pic-  
tures of big game shooting.Fiere was sent to Africa a year ago,  
joined a German mission and went out  
shooting with Lieut. Graetz. While  
he was operating the camera Graetz  
was charged by a wounded buffalo,  
whereupon Fiere left the apparatus  
and went to the rescue of the officer,  
again wounding the buffalo, which  
then trampled him to death.The widow was awarded an annual  
income of \$124 for herself and \$216  
for her three children.

## Queen Mother Is Prostrated.

London, March 19.—The news of the  
assassination of the king of Greece,  
rumors of which have been pouring  
into London from various European  
capitals, was officially confirmed by a  
message received by Queen Alexandra  
at Marlborough house. It was from  
Prince Nicholas, at Salonika, where  
the murder was committed, and briefly  
stated that King George was assassi-  
nated while walking the streets of  
Salonika and died half an hour after  
receiving the fatal wound.On hearing the news Queen Alexan-  
dra collapsed, falling in a deep swoon.  
Her condition caused her attendants  
and physicians the deepest concern.

## Founder of New Dynasty.

London, March 19.—Half a century  
has passed since the day—March 18,  
1863—when the Greek national assem-  
bly at Athens, at the suggestion of the  
great powers of Europe, elected Prince  
William George of Schleswig-Holstein-  
Sonderburg-Gluecksburg, second son of  
the late Christian IX. of Denmark and  
brother of Queen Alexandra, to be king  
of the Hellenes.Prince William George was only  
eighteen years old and a midshipman  
in the British navy when he was of-  
fered the throne of Hellas. The for-  
mer ruler, King Otto I., who was a Ba-  
varian prince, was deposed by a rev-  
olution in 1862, and the provisional  
government by the ministry was not  
strong enough to prevent political  
complications which threatened to un-  
dermine the peace of Europe.

## Sent to Masthead as Punishment.

The young prince had been sent to  
the masthead for punishment when  
the emissaries of the powers arrived  
to offer him the crown. He accepted  
through his father, and, having been  
officially declared of age, he made his  
entry in Athens on October 30 of that  
year, took the oath and ascended the  
throne.Four years later, October 15, 1867,  
he married the Grand Duchess Olga,  
eldest daughter of the Grand Duke  
Constantine of Russia, thus connecting  
himself by a strong link with one of  
the most powerful reigning families of  
Europe.The Greeks agreed to settle \$225,000  
a year upon their new king. England,  
France and Russia each agreed to add  
\$20,000 a year for the term of his  
natural life and about \$50,000 was  
charged for his benefit on the Ionian  
islands, which were later ceded to him  
by Great Britain.Queen Olga bore him six children,  
of whom all but the youngest, Prince  
Christopher, born in 1888, are married.  
The heir apparent to the throne is  
Prince Constantine, duke of Sparta,  
who was born in 1868, and in 1889 was  
married to Princess Sophia, sister of  
Emperor William II.The king was born December 24,  
1845, as the second son of Prince  
Christian of Schleswig-Holstein-Son-  
derburg-Gluecksburg, who became king  
of Denmark in 1863, and Princess  
Louise, daughter of King Karl XV. of  
Sweden and Norway. In baptism the  
young prince received the name Chris-  
tian William Ferdinand Adolphus  
George.Sketch of Crown Prince Constantine.  
The Crown Prince Constantine, who  
will succeed King George, is the gen-  
eralissimo of the Greek army in the  
field in the Balkan war. He has dis-  
tinguished himself in fierce fighting  
and only about ten days ago news  
came that, at the head of a big force,  
he had forced the surrender of the im-  
portant Turkish fortress of Janina,  
the key to the province of Epirus.He was born at Athens on July 21,  
1868. The crown prince was the son  
of King George I. of Greece. The work  
of the young prince, after he had ob-  
tained his majority, was largely de-  
voted to reestablishing the Greek army  
upon a firm footing.

## MRS. PANKHURST FED BY STEEL GAG

Suffragette Declares Prison Attendants Torture Her to End Hunger Strike.

### SAYS SHE EATS SIX DAILY

House of Commons Have Bitter Debate Over Methods Used in Dealing With Suffrage Advocates—Attack Home Secretary.

London, March 19.—The fanatical self-torture methods adopted by the militant suffragettes while in prison has become a national problem. The subject was under long discussion in the house of commons, and resulted in an attack upon Home Secretary McKenna. While this was taking place, the militant suffragette union issued a copy of a letter received by Mrs. Emmeline Pankhurst from her daughter Sylvia, who is now in Holloway prison. The letter read as follows:

**Says She Eats Six Daily.**  
"Dearest Mother: I am fighting, fighting, fighting! I have four, five or six wardresses every day, as well as two doctors. I am fed through a stomach tube every day.  
"They pry open my mouth with a gag, pressing it in where there is a gap in my teeth. I resist all the time. My gums are always bleeding.  
"I am afraid they may be saying that we do not resist, yet my shoulders are bruised by the struggling when they hold the tube in my throat.  
"I used to fear that I would go mad at first, but I have got over that. (Signed) "SYLVIA."

**Attack Home Secretary McKenna.**  
Harold Smith, a Unionist member, declared in the house of commons that the country faced practically mob law and called upon the home secretary to resign from the cabinet, as he had been "a hopeless failure."

Mr. McKenna, the home secretary, defended himself with much warmth. He said that after dealing with sixty-two women who had been sentenced to prison since January 1, he had found that the only way to deal with the women was as the individual case required. Humanly, he said, would slowly but surely break down the practice.

In defense of his bill to make legal the forced feeding, he said that under the law now, he must either let them starve or let them out of prison before they died of starvation.

## KING'S HEALTH ALARMS

Spanish Capital Warned Over Appearance of Alfonso.

Feared That Young Monarch's Lungs Are Seriously Affected—Duc De Montpensier Hit.

Madrid, March 19.—Despite the ostensible optimism of the royal physicians, it is generally known that the health of King Alfonso is causing the gravest anxiety in the capital and the order issued here forbidding the taking of snapshots of the young king has been accepted as a confirmation of the current reports of his ill health.

It is feared that the lungs of King Alfonso are seriously affected. If this proves true, it will cause but little surprise, as the king's father died of tuberculosis and it is believed that the son inherited a touch of the disease. Those who have seen King Alfonso recently have been struck by his haggard appearance and stooping shoulders.

San Francisco, March 19.—Alleging that he was an aspirant to the Albanian throne, the Duc de Montpensier's yacht Mekong was boarded in Brindisi harbor by the British consul at that place, at the request of the Italian government and a demand was made to inspect the royal warrant to fly the naval reserve flag.

## REBELSWHIP FEDERALS

Latter Battle Valiantly From the Housetops.

Mexican Garrison Loses Half Its Number in Hot Skirmish—Troops to Protect Laredo.

Torreón, Mex., March 19.—A band of rebels, commanded by Calixto Contreras, attacked and defeated the garrison of Pedernales under Colonel Barrios, according to dispatches received here. The federals, numbering only fifty men, fought stubbornly from the housetops, but were routed, leaving 25 dead and several wounded.

Monterey, Mex., March 19.—Gen. Tracy Aubert sent a detachment of 200 government troops with artillery to assist in the protection of Laredo, on the United States frontier, against the attack of the Carranza rebels. Another column of government troops has been sent from here to capture a force of 80 rebels, who have taken possession of the town of San Nicolas Hidalgo, about five miles distant from this city.

A column of 400 federal troops, commanded by General Aubert, defeated 500 followers of Carranza at Potrero, in the state of Nuevo Leon. The reports received here say that the federals lost 17 killed and the rebels 28.

## WOMAN IN EATON CASE

Testifies at Inquest Without Disclosing Her Identity.

Members of Dead Rear Admiral's Household Under Close Watch During Investigation.

Boston, March 19.—The sudden entrance of a "woman of mystery" into the investigation of the sudden death of Rear Admiral Joseph G. Eaton has given a new turn to this strange case. Appearing at the inquest that is being conducted by District Attorney Albert F. Baker of Plymouth county, she went on the stand as a witness and then disappeared as mysteriously as she had come. No one seemed to know who she was and the inquest officials refused to reveal her identity.

The woman's face was not familiar to any of those who have been working on the odd death of the veteran, nor did any of the intimate friends of the late admiral seem to be able to place her. After testifying at the inquest proceedings she slipped out of a side door and thus escaped the vigilance of the reporters. She is described as being a young woman of about twenty-eight, slender in build and apparently good looking.

Every member of the Eaton household continues under the strictest surveillance, while the inquest progresses.

New York, March 19.—Because Samuel McCurdy, head of a theatrical enterprise at 1402 Broadway, did not interpose any answer in the suit for \$50,000 brought against him by Dr. George W. Tracey for the alienation of the affections of the physician's wife, Mrs. Grace E. Whitney Tracey, a sheriff's jury found against McCurdy with a verdict for \$50,000 damages.

## Arrangement of Attractive Easter Table

By Adele Mendel

**D**AME HOSPITALITY, who is ever on the alert for some unique manner in which to decorate a table at Eastertide, will find numerous golden suggestions from which to draw, if she looks to the springtime for inspiration. More and more Eastertide is gradually developing in the joyful recognition of the return of the spring. The singing birds, blossoming flowers and bright, sunny days are always associated with the thought of Easter.

There are many old beliefs connected with Easter, which have been handed down to us. Eggs have always been identified with the Easter celebration, and formerly were exchanged, containing love sentiments much as we exchange valentines today. Another custom was to bring colored eggs to the parish priest, who blessed them before they were distributed to the poor people.

Another superstition which probably is responsible for the origin of the "Easter hat" is that, to be successful in love affairs, one must wear some new article of clothing on Easter day. The appropriate colors for Easter decorations are pure white, lavender and purple, yellow and white, with accompanying green for floral decorations. Lillies, both calla and Easter, wisteria, fleur-de-lis, violets, or any spring flowers are used effectively.

Fluffy little chickens, colored eggs and rabbits figure prominently in Easter decorations. The discriminating hostess who has an eye both to economy and effect can originate really artistic decorations at home. A good idea is to purchase one or two favors and try to copy them. With a little practice you can make many novel decorations which will help make your entertainment a success. "Three-fifths of the joy of eating is in the appearance of the dainties of the table."

The table illustrated embodies many novel Easter ideas. The table cloth is of crepe paper, designed with rabbits and great splashes of violets, though if one prefers a white damask cloth may be used. The centerpiece is a great bunch of Easter lilies, with green leaves, in a large bowl, covered with lavender and white crepe paper, which has edges cut to form leaves. At the base is a stunning lavender Maline bow. Four crystal candlesticks, with white crepe paper shades tinted in lavender and ornamented with violets, add to the picturesque effect of the table. Fluffy little chickens, which can be purchased for a few cents a dozen, are attached with baby ribbon of lavender to paper carts. These wagons hold small candy eggs. The lilies were sprinkled with crystallized violets and served in tall glasses, covered in lavender and white ruffled paper and trimmed with long-stemmed violets. The place cards have little chicks perched on the corner of the card. At each place is a bouquet of violets, either real or imitation, for a souvenir.

Instead of serving ice cream, an Easter gelatine would be very appropriate, as it is violet-colored. This is made by flavoring gelatine with grape juice, pouring into an egg shell. When the jelly is cold and firm, remove the shells and you will have clear violet eggs. Arrange these around a mold of Bavarian cream.

Yellow and white were the predominating colors used in another table. The centerpieces were of large wicker basket, covered with artificial moss and filled with yellow flowers. At each place the place cards were of blown eggs, gilded, with the name of the guest written in white ink. Tiny nests of yellow spun sugar, containing egg-shaped bon-bons. For holding nuts there were little yellow paper baskets, made by covering a small, round box with paper, to which is fastened a handle of wire, wound with paper. At the top, tied on with a gold cord, is a bunch of real or artificial flowers.

For this luncheon the chicken salad was served in very small flower pots, with grated yolks and whites of eggs sprinkled on top, and a sprig of parsley apparently growing in the center. The sandwiches were cut egg-shaped. The ice cream was served in a nest of lady fingers. The small cakes were egg-shaped and iced in yellow and white.

It is always wise to provide some entertainment for your guests. When luncheon is over give each guest a string and bid them hunt for the egg at the other end. The strings cross and recross about the furniture, and much merriment results in the hunt. Here and there a nonsense couplet can be tied to the string, to give zest to the search. At the end of each string should be found an Easter souvenir.

The children to some extent have appropriated Easter as their day and much pleasure is derived in giving a children's party the week following Easter Sunday.

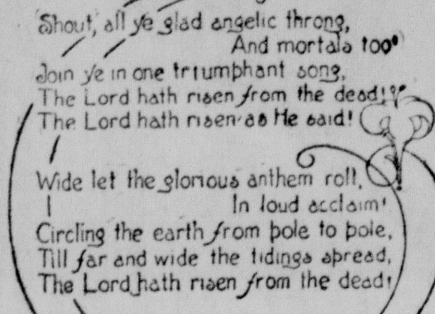

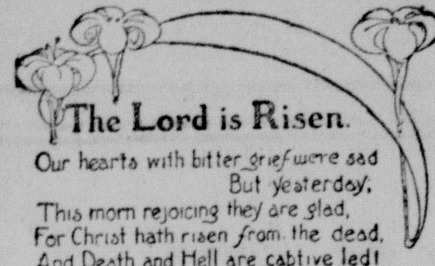

A table which certainly will arouse the enthusiasm of juvenile guests has a large basket in the center, covered with twigs and green. From this rises a white rabbit, holding in his front paws an Easter egg. From the basket to each plate are ribbons; at the end of each ribbon is a diminutive rabbit, holding the place card.

The candle shades are decorated with designs of rabbits, cut from decorative paper and applied on to the plain shade. For bon-bon boxes have Easter eggs filled with candies, or boxes in the shape of rabbits. Serve the ice cream in nests made of strips of candied orange peel. For entertainment, after the children have left the dining room, award a prize to the one who can draw the most perfect rabbit blindfolded. A game which will provoke much merriment is to have candy eggs in various places in the room and announce a prize will be awarded to the one who finds the greatest number.

Another novel idea for a children's table is to make a huge egg of crepe paper on a wire foundation, and also three or four ladders of wire covered with twisted paper. Then set little chickens on the rounds of the ladder, as if they were just emerging from the egg and were coming down in a great hurry. Other chicks could peep out of the egg. The egg could hold Easter favors to be distributed just before the guests leave the table. At each place have a nest made of paper moss in which place a little candy chicken.

After the luncheon is served, give each child some colored crayons and an Easter egg and announce that you will award a prize to the one who displays the most originality in decorating the egg.

## Message That Easter Brings

**T**HE MESSAGE of Easter Day to men is the promise of a new and nobler life.  
Men may die out of a meaner self here and now into a nobler self, if so they will.  
And this is the pledge that the offer of Christ to humanity shall find yet higher fulfillment in still diviner forms of being yet to be.

So history runs, proclaiming not so much the descent as the ascent of man, step by step, into the kingdom of the Highest and Divinest of all.

Nature is life. Anything in it that looks like death is but a token and certificate of life about to commence anew. Every end there is only a beginning—some lower form letting go its life and casting away its coarser self, that it may re-appear again in forms more beautiful and pure. The mere leaves that seem to fade and rot, pass downward into the root life of some rarer plant more lovely than themselves, and when the sun and rains summon them anew come forth in forms more wonderful and hues more rare than ever they had known before. The creeping worm dies out of its meaner life into a winged beauty which Egyptian art and Christian symbolism have alike borrowed to utter—the one its struggling hope, the other its clear undoubting faith. And this is at once the fitness and the suggestiveness of our Easter blossoms. We miss the lesson of yonder flowers if we look on them as forms of mere adornment, or see in them only the hues and fragrance of a fleeting life.

Beautiful as they are, like us, they will fade and fall. But their special appropriateness lies in this, that in all plant life under Heaven, death is the stepping stone to life more fair and rich, the law of which is held with themselves. The autumn winds strip the plant's branches bare, and wither its blossoms, and to outward semblance quench the life out of it wholly. But when the spring rains come again and the sun's kinder rays kiss the greenness back again into the shriveled branches, there has been at work all the time an answering law of life within those branches, more powerful than all other powers besides. And thus our vernal buds best symbolize our Easter fact. How can our hearts refuse, then, to echo those notes of triumph gladness?—Bishop Henry Potter.

## ETERNAL LESSON OF EASTER

Comes as an Answer to the Age-Old Question, "If a Man Die, Shall He Live Again?"

There are those who think of death with a shudder, and of the other world with a sinking heart, because death seems to be a breaking of all the ties which are sacred, and a transference of the soul into a foreign world, writes Charles E. Jefferson, D. D., LL. D., pastor of the Broadway Tabernacle, New York City. The world in which we now live is dear to us because we know it so well. It is cozy and warm, and we prefer it to any world of which it is possible for us to think. The heart likes the old. It shrinks from the untried. But the message of Easter is that the other world is our home just as this one is. The universe is a big house containing many rooms, and we pass from one room to another. The home in all its parts has been furnished and is conducted by infinite love. The baby does not feel himself a stranger when he comes into our world. Love has prepared the way for him, and love has also prepared the way for us in the world eternal.

We are not going to a foreign land, we are not to live in the midst of strangers, we are not to suffer from homesickness in a world that is cold and strange—we are going home. From the first hour we shall feel at home, and we shall fall in at once with the ways of life there, and shall find ourselves in the presence of friends. It is an old question which has haunted the human mind from the beginning: "If a man die, shall he live again?" Easter says, "Yes!" and declares that in the hour of death, a man stands up alive, and complete, and at home.

When Jesus presented himself to his disciples on the first Easter they knew him. They found him to be the same friend which he had always been. His disposition had not changed, nor his attitude to them, nor his purposes for the world. He was the same Jesus. "It doth not yet appear what we shall be," but of one thing we may be certain, and that is that we shall always be ourselves, that our friends shall be themselves, and that the Christ we have known here will be the same Christ forever.

Some people get so tired doing nothing that they have no strength left to do anything else.

## SOME GLEANINGS FROM AMBOY

BOX SOCIAL AT MIDDLEBURY SCHOOL FRIDAY WAS A SUCCESS.

Amboy, Mich. 18.—The dance at the opera house Monday evening was well attended and a fine time reported. Aschenbrenner's orchestra furnished music.

Ray and Clyde Whitam spent Sunday at home here.

John Whetston of Steward was in town Sunday.

Walter Scott Jr. is employed at the hospital.

Mr. and Mrs. Curtin are entertaining Chicago relatives.

Chas. June, wife and baby spent Sunday here.

Wm. Keeling of Aurora was here the first of the week.

Chas. June, wife and little daughter returned Saturday from a visit in Freeport and Chicago.

Snow fell Sunday and Monday. For a short time Sunday a blizzard raged.

Mr. and Mrs. A. Carmichael were in Freeport Saturday.

Walter Aschenbrenner came out from Chicago the last of the week to visit his parents.

Mrs. Fannie Buckingham was here Monday.

Misses Carol Keefer and Irene Wooster spent Saturday in Dixon.

Mrs. Henry Walters and daughter Ruth were in Dixon Saturday.

The fire department was called out Sunday at about 10 a. m. on account of the roof of the hospital being on fire, but only a few shingles were burned. Some of the patients were badly frightened when they learned of the fire. The department responded very promptly.

Mr. and Mrs. Foy Brown of Mendota visited her parents, D. Zeek and wife, Sunday.

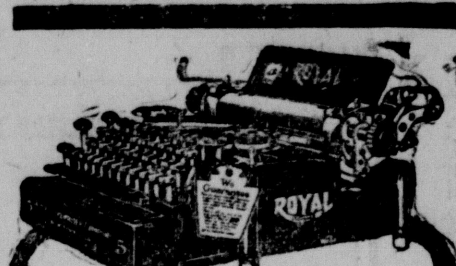

Many from here attended the box social at the Middlebury school, of which Miss Wagner is teacher, last Friday evening. The boxes were sold at good prices and doubtless a neat sum was realized. A program of songs recitations, dialogues and short plays afforded entertainment. The room was decorated in pink and white and the words of welcome across the temporary stage made a pretty appearance. Those taking part did very well. At a late hour the special car left for Amboy.

F. I. Fehr of Freeport was here on Saturday.

Miss Ruth Wilcox of Chicago expects to spend Easter with relatives here. She is taking advanced kindergarten work and has spent several months attending school.

Mrs. J. O'Malley is here from Ohio, this state, visiting her parents, Mr. and Mrs. D. Zeek.

H. H. Hart has gone to Tampa, Fla.

WITHOUT FOOD FOR WEEK:  
HERMIT IS NEAR DEATH

A party of hunters Sunday afternoon found Ed Ryckle, aged 50 years, a Belgian hermit, near death in a shanty boat in the west end of Rock Island. The man had been without food for a week and he was stricken with typhoid fever. He has been removed to St. Anthony's hospital and the probability is that he will not recover.

## WHY IS DIXON FIRM

Because Its Citizens Have Learned  
the Truth.

After reading this generous and  
encouraging report from Mr. Self  
those who have the misfortune to  
suffer, as he did, will naturally long  
to get similar relief. But to get the  
same good as Mr. Self had, you  
should get the same remedy. There  
are of course other kidney pills but  
there are no other kidney pills the  
same as F. an's. That is why Dixon  
people demand the genuine.

Roy F. Self, 516 Lincoln Ave., Dix-  
on, Ill., says: "Although I have not  
used any kidney medicine myself, I  
can recommend Doan's Kidney Pills  
in view of what they have done in  
our family. One of us had nervous  
and dizzy spells and also suffered  
from backache. The use of Doan's  
Kidney Pills gave complete and per-  
manent relief."

For sale by all dealers. Price 50  
cents. Foster-Milburn Co., Buffalo,  
New York, sole agents for the United  
States.

Remember the name—Doan's—  
and take no other.

Kansas City wires: The Morning  
Journal has the following: Terrible  
storm sweeps over central Kansas, Sa-  
lina: Terrible wind and dust storms  
over this part of state completely  
stopping farm work and hindering  
train service. Great Bend, Kas.: The  
heavy winds today are drying ground  
faster than any day of sunshine. In-  
dications look good for more rain  
and wheat needs it.

Price Current, Cincinnati: During  
the past two weeks there has been  
more or less precipitation through-  
out the corn and winter wheat terri-  
tory, much of which was in form of  
snow that has melted and soaked in-  
to the soil without running off in the  
streams and it would seem that the  
soil condition is generally favorable  
for spring growth of winter wheat  
and planting of other grain crops. In  
fact there is no indication by the re-  
port received from correspondents of  
any unfavorable conditions. Thus we  
start out with a very favorable pros-  
pect for the crop growing season that  
is opening in good time. Indications  
are that the spring work will be in  
progress generally by April 1, but  
has already begun in the southern  
portions and in the southwest.

Estimates for Chicago tomorrow:  
Wheat 48 cars, corn 164 cars, oats  
122 cars.

Dixon, Mch. 19, 1913.

Wheat: Strength has been shown  
all day and the better class of buying  
during the last few days has begun  
to be felt as a market influence.

While no straight-away advance of  
large proportions may be witnessed,  
we look to see a gradually better mar-  
ket on an advancing scale and if  
there is any change from the present  
rosy outlook for the wheat crop then  
a broad, general trade. There has  
been a better inquiry for hard winter  
wheat here today with May price F

O B bid. Reports of some damage  
west of the Missouri river from high  
winds and a bullish report from  
Broomhall, who makes the world's  
crop of wheat last year 158,000,000  
less than the estimate by the interna-  
tional institute, helped change senti-  
ment. The government reports ex-  
ports on this crop at 152,500,000 or  
more than 70 per cent in excess of  
last year. Strength in corn today was  
a helping factor in wheat.

Corn: Dullness early in the day  
was followed by good strength and  
accompanied by improvement in the  
cash demand. Receipts light and the  
country elevator stocks being reduced  
materially. Clearances (this week  
on old sales have been liberal and re-  
duction in stocks at eastern point  
should more than offset a moderate  
increase in the interior. One of the  
best symptoms was the strength in  
May as compared with deferred de-  
liveries. If eastern demand improves  
cash corn should gradually gain on  
May, the present discounts for cash  
corn are not unusual as compared  
with the last three years at this time  
of year.

Oats: Strength, especially in May  
delivery, has come suddenly and ac-  
companied by considerable covering  
by shorts. May and July oats now sell  
at the same price and the receipts  
show an improvement as compared  
with corn, they are not heavy. Fresh  
eastern demand and local consump-  
tion are about equal to the daily re-  
ceipts.

Provisions: Some stop loss selling  
in pork was responsible for weakness  
thru the list. Strength in deferred  
deliveries is thought to be due to  
changing by longs from May to later  
months. The hog run west was fair-  
ly liberal and larger than a year  
ago, but prices at the yards were not  
seriously affected. Those who took  
advantage of bulges earlier in the  
month to accept profits may gradu-  
ally find it advantageous to replace on  
sharp declines.

By virtue of an order and decree  
of the County Court of Lee County,  
Illinois, made on the petition of the  
undersigned administrator of the Es-  
tate of James Westcott, deceased, for  
leave to sell the Real Estate of the  
said deceased at the February term,  
A. D. 1913, of the said Court, to-wit,  
on the 15th day of February, 1913, I

at the hour of two o'clock in the af-  
ternoon of said day sell at public  
sale at the premises in the town of  
East Grove in said County the Real  
Estate described as follows, to-wit,

the south half and the northeast quar-  
ter of the northeast quarter of sec-  
tion nine; the east half of the south-  
east quarter of section five; the  
northeast quarter of the north-  
east quarter of section eight  
the west ten acres of the southwest  
quarter of the southwest quarter of  
section three; situated in the town of  
East Grove, Lee County, Illinois,  
containing in all four hundred and  
ten acres more or less or so much  
thereof as shall be necessary for the  
payment of three mortgages de-  
scribed in said decree on the following  
terms, to-wit: 20 per cent of the pur-  
chase price, cash in hand the day of  
sale and the balance upon confirma-  
tion of sale and delivery of deed.  
Dated this 24th day of February,  
1913.

Another count charges the abstraction of a \$352,500 note by three officers and six directors of the bank with intent to injure and defraud the Cincinnati Trust company.

Those against whom indictments were returned for alleged illegal loans to the Ford & Johnson company are George B. Cox, Charles H. Davis, Norman G. Kenan, James F. Heady, James M. Hutton, I. N. Miller, N. S. Keith and F. R. Williams. The following were indicted on the charge of abstracting the \$352,500 note: George B. Cox, J. M. Crawford, Charles H. Davis, David C. Edwards, James F. August Herrmann, chairman of the National baseball commission, appeared at the courthouse with McCox and signed his bonds, \$5,000 for each indictment.
